

● Macbook laptop 1280 x 800 pixels

● iPad landscape 1024 x 768 pixels

Note: The exact layout of a web page is determined by the browser and depends upon the screen shape and size. This sketch will give an indication of appearance and position rather than an exact representation.

Think about what you want to say. Your page needs to have good "content", that's the words on the page.

Colourcodes can be viewed online here:
